

## Product Specific License Terms ScriptLogic

**Product Specific License Terms.** The following additional terms apply to each license granted hereunder, as applicable:

**Active Administrator®** is licensed based on the number of active user objects in the licensee's Active Directory.

**Help Desk Authority™** is licensed based on the number of named help desk technicians that have the right to use the software, irrespective of whether they actually use the software or not.

**Help Desk Authority Modules: HDAutoEscalate, HDAccess, HDMail, HDSync and HDSearch** are each licensed per Help Desk Authority Installation. **HDAsset** is licensed based on the total number of computers that will be audited in Help Desk Authority.

**Desktop Authority®** is licensed based on the total number of unique Seats which are managed in whole or part by Desktop Authority. "Seat" is a desktop, laptop, Windows servers or workstation computer, or thin-client session or any other user computing device. You may not (a) reverse engineer, decompile, disassemble, modify, translate, or distribute the patch management and anti-spy ware databases distributed and updated by ScriptLogic, or (b) access, use, attempt to access or use the Subscription Services made available by ScriptLogic as part of Software (where applicable) in any manner, other than as part of Software use and configuration as provided for by ScriptLogic. Unless you have purchased the appropriate subscription plan, you may not access the subscription based databases, data services or additional functionality ("**Subscription Services**"). A "**Subscription Plan**" means an annual subscription to a Subscription Service from ScriptLogic. If you purchase a Subscription Plan, the Software will query the ScriptLogic servers remotely to determine your payment status. Termination or expiration of the applicable Subscription Plan also terminates your right to continue accessing or using the Subscription Services.

**Desktop Authority® Image Center™** is licensed per workstation or server that will have an image deployed to it or captured from it. The licenses may not be moved, and workstation and server licenses are not interchangeable.

**MSI Studio™** is licensed per named administrator. The same license may not be used by another administrator, irrespective of whether the named administrator is using the license or not.

**Desktop Authority® Password Self-Service™** is licensed on the number of enabled domain user accounts, whether they use the software or not.

**Remote Support Center™** is licensed either: (1) per named help desk technician that will use the InstantAssist client or (2) on a per-Seat basis where the ExpertAssist client will be deployed.

**Enterprise Security Reporter®** is licensed per named server. For named server licenses, a separate license must be purchased for each (i) file server that is discovered, (ii) SharePoint Web Front end server in each SharePoint farm that is discovered, and (iii) each SQL server that is discovered. The license may not be moved to another server.

**File System Auditor™** is licensed per named server. For named server licenses, a separate license must be purchased for each server that is audited. The license may not be moved to another server.

**Patch Authority Ultimate™** is licensed on a named computer basis where a license is permanently assigned to every computer that will be managed from the console. The license may not be moved to another computer. If the patch updating services are not renewed, the software may cease to operate.

**Perspective Professional** is licensed per device that will be monitored. The license may not be used on more than a single device, and all devices must be located at the same site.

**Perspective Distributed** is licensed per device that will be monitored. The license may not be used on more than a single device; devices may be located in multiple sites

**Perspective Modules: VoIP Monitoring and Wireless Monitoring** are each licensed per Perspective Installation.

**Perspective Module: Network Flow Analyzer** is licensed per device that traffic flows will be collected from.

**Secure Copy®** is licensed per named server. A separate license must be purchased for each computer, whether it will be a source or destination. The license may not be moved to another source or destination computer.

**Security Explorer®** is licensed per named server or per workstation, or both. For named server licenses, a separate license must be purchased for each (i) file server that is managed, (ii) each SharePoint Web Front end server in each SharePoint farm that is managed, (iii) each SQL server that is managed. The license may not be moved to another server. For workstation licenses, a license must be purchased for the maximum number of workstations that will be managed; these licenses may be moved to different workstations. For Exchange licenses, (a) at a minimum, licenses must be purchased for the total number of active mailboxes in the Exchange Organization, and (b) licenses may be additionally purchased for managed inactive mailboxes.

**SL360** is a free product ("Freeware") and is licensed as follows:

**License.** ScriptLogic hereby grants Customer a non-exclusive and non-transferable, license to use the Freeware, in executable object code form only, for personal or internal business purposes, for the duration specified by ScriptLogic. Customers who are partners of ScriptLogic may use the Freeware on their customer sites for promotional purposes only, provided, however, that if their customer wishes to obtain their own copy of the Freeware, Customer must direct their customer to ScriptLogic's download site to obtain a copy of the Freeware. ScriptLogic may change the scope of use restrictions set forth herein at any time in its sole discretion. This license does not entitle Customer to receive from ScriptLogic hard-copy Documentation, technical support, telephone assistance, or enhancements or updates to the Freeware. If ScriptLogic releases a commercial version of the Freeware, the parties shall agree upon the fees and terms of such use in a separate signed agreement.
